Technical Skills Frontend

-  Html/Css/scss
-  Javascript/Typescript
-  React Ecosystem(React-router, TanStack, Zod+Typescript, Vite and Parcel)
-  React State Management(ContextAPI, React Redux, Zustand)
-  Modern UI Libraries(Shadcn UI, aceternityUI, MUI, HeroUI etc)
-  Tailwind css for component styling
-  Micro Intractions for Frontend UI Designing with Tailwind Css ,Motion, Gsap
-  Next JS + Typescript Server-Side Rendering (SSR), Static Site Generation (SSG), Incremental Static Regeneration (ISR), Client Side Rendring (CSR), API Routes, Middleware, dynamic routing, image/font optimization. Experience with authentication(Custom Authentication system, Oauth, AuthJS)
-  Javascript Runtime Node Js
-  Databases (MongoDB, Postgress) with ORM like (Mongoose, Prisma and Drizzle)
-  Programming Languages(C++, Javascript, Python and Java)
-  Data structures and Algorithms(C++)
-  Database Management Systems (DBMS), Operating Systems (OS) Computer Networks Discrete Mathematics , Probability & Statistics, Computer Organization & Architecture, Digital Electronics etc.
-  Linux, Docker (Dokerize the Frontend(React and Next js Applications to run on Containers)
-  System Design(Conceptually)

Education

Bachlors in Computer Science(BCA) in tier 3 collage from kashmir University.

Complitation Year: 2023

Proof of Work

Full stack SASS Projects

Localhost.io (Full stack SASS Product)

Built and maintain Localhost.io, a full-stack SaaS product providing production-ready web components, templates, auth components, and scalable code solutions. Offers mobile UI blocks for React Native and Flutter, design assets, and reusable frontend systems. Focused on developer productivity, clean architecture, and real-world, deployable solutions.

<http://localhost.io.com>

Deadlock

Built and maintain Localhost.io, a full-stack SaaS product providing production-ready web components, templates, auth components, and scalable code solutions. Offers mobile UI blocks for React Native and Flutter, design assets, and reusable frontend systems. Focused on developer productivity, clean architecture, and real-world, deployable solutions.

<http://localhost.io.com>

Builder.io(V0-Clone)

Built and maintain Localhost.io, a full-stack SaaS product providing production-ready web components, templates, auth components, and scalable code solutions. Offers mobile UI blocks for React Native and Flutter, design assets, and reusable frontend systems. Focused on developer productivity, clean architecture, and real-world, deployable solutions.

<http://localhost.io.com>

Frontend Templates UI

Built and deployed production-ready web applications using React and Next.js. Projects demonstrate real-world problem solving, clean architecture, responsive UI, performance optimization, and integration with backend APIs. Live links and GitHub repositories validate practical skills and consistency.
